Artivion, Inc., headquartered in Kennesaw, Georgia,¹ recently completed an investigation into a security incident involving unauthorized access to its network. Upon learning of the incident, Artivion immediately initiated its incident response protocols, including shutting down systems as a protective measure, and began an investigation with outside cyber experts. The investigation determined that an unauthorized third-party gained access to Artivion's network between November 20 and November 21, 2024, and obtained certain files.

Artivion conducted a detailed review and analysis of the files involved to identify individuals whose information was included and confirm their contact information. On June 9, 2025, Artivion's review identified information for three Maine residents, including their names and one or more of the following: Social Security number, driver's license number, and/or direct deposit information.

On July 9, 2025, Artivion began mailing notification letters via First-Class mail to the involved Maine residents. A sample copy of the notification letter is enclosed. Artivion is offering a complimentary, two-year membership to credit monitoring and identity protection services to individuals whose Social Security, driver's license, or passport numbers were involved. Artivion also has established a dedicated, toll-free call center that individuals can call to obtain more information regarding the incident.

To help prevent something like this from happening again, Artivion has implemented additional safeguard to further protect and monitor its systems.

¹ This notice does not waive Artivion's objection that Maine lacks personal jurisdiction over it regarding any claims related to this incident.

You can obtain information from these sources about steps an individual can take to avoid identity theft as well as information about fraud alerts and security freezes. Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 160, Woodlyn, PA 19094, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
