Subject: Notice of a Data Breach

December 15, 2025

Dear _____,

Event Rental Systems ("ERS"), which offers a customizable event rental software, including online reservation services software, recently identified a security event that affected your personal information. Please read this notice carefully as it provides up-to-date information on what happened and what we are doing, as well as how you can obtain complimentary credit monitoring and identity restoration services.

What happened?

We recently identified unauthorized code had been inserted into certain modules of some customer websites. This code was designed to collect payment card information during transactions. Once we identified the issue, we removed the code and took steps to secure the affected systems. A forensic firm was engaged to investigate how the unauthorized code functioned and what data was affected. We have notified law enforcement and the card brands.

What information was involved?

We recently determined that your name, contact information, payment card number ending in _____, CVV, and expiration date were scraped by an unauthorized actor between October 2024 and October 2025. **This security event did not impact your Social Security number, state identification number, or bank account information.**

What we are doing:

ERS is committed to safeguarding personal information. ERS is also offering one year of complimentary credit monitoring and identity restoration services through our preferred third-party vendor, Experian.

Please see [Attachment A](#) for details regarding these complimentary credit monitoring and identity restoration services, as well as how to enroll with your unique code. **You must enroll by February 28, 2026, to receive these services.**

In addition to these actions, ERS has taken additional steps to deploy additional safeguards onto our systems, including reinforcing our security practices and is actively reviewing our systems to enhance security monitoring and controls, and to fortify the same. And, as part of our ongoing security operations, we regularly review our security and privacy policies and procedures and implement changes when needed to enhance our information security and privacy programs and controls.

What you can do:

In addition to enrolling in the credit monitoring and identity restoration services being offered to you at no charge, we encourage you to take the following precautions:

- It is always a good idea to remain vigilant against threats of identity theft or fraud and to regularly review and monitor your account statements and credit history for any signs of unauthorized transactions or activity.
- If you ever suspect that you are the victim of identity theft or fraud, you can contact your local police. Additional information about how to protect your identity is contained in [Attachment B](#).

For more information:

ERS has established a dedicated call center to answer questions about the security event as well as the Experian services that we are offering to you. If you have any questions, please call the call center at 833-918-0255 Monday – Friday, 9 am to 9 pm ET, excluding U.S. public holidays.

We regret any inconvenience that this security event may have caused you, and we remain committed to safeguarding personal information.

Sincerely,

ERS Information Support Team

MORE INFORMATION ABOUT IDENTITY PROTECTION

INFORMATION ON OBTAINING A FREE CREDIT REPORT

U.S. residents are entitled under U.S. law to one free credit report annually from each of the three major credit bureaus. To order your free credit reports, visit www.annualcreditreport.com or call toll free (877) 322 8228.

INFORMATION ON IMPLEMENTING A FRAUD ALERT OR SECURITY FREEZE

You can contact the three major credit bureaus at the addresses below to place a fraud alert on your credit report. A fraud alert indicates to anyone requesting your credit file that you suspect you are a possible victim of fraud. A fraud alert does not affect your ability to get a loan or credit. Instead, it alerts a business that your personal information might have been compromised and requires that business to verify your identity before issuing you credit. Although this may cause some short delay if you are the one applying for the credit, it might protect against someone else obtaining credit in your name.

A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit, mortgages, employment, housing, or other services. A credit reporting agency may not charge you to place, temporarily lift, or permanently remove a security freeze.

To place a fraud alert or security freeze on your credit report, you must contact the three credit bureaus below:
