RE: Important Security Notification. Please read this entire letter.

Dear «FirstName» «LastName»:

ACME Truck Line, Inc. (“ACME”) recently discovered an incident that may affect the security of your personal information. We want to provide you with information about the incident, steps we are taking in response, and steps you may take to guard against identity theft and fraud, should you feel it is appropriate to do so. You are receiving this letter because ACME’s records show you worked with ACME.

What Happened? On February 19, 2026, ACME discovered that an unauthorized third party gained access to certain computer systems maintained by ACME (the “Cyber Attack”). The Cyber Attack was carried out by an unauthorized person who exploited vulnerabilities in third-party security services and software used to protect ACME’s network. A third-party vendor retained to monitor ACME’s network for threats of this kind did not identify or escalate indicators of the attack before it was executed. Upon discovering the Cyber Attack, ACME acted immediately to contain the incident, engaged a forensic cybersecurity firm to investigate, and notified law enforcement.

What Information Was Involved? The personal information that may have been accessed or acquired as a result of the Cyber Attack includes your name in combination with one or more of the following data elements: Social Security number; date of birth; driver’s license number; financial account and/or direct deposit information; tax withholding records; and health insurance enrollment information.

What We Are Doing? We take the protection of your personal information seriously and are taking steps to prevent a similar occurrence. Upon discovering the Cyber Attack, ACME engaged a forensic cybersecurity firm to investigate the scope and nature of the incident and notified the Federal Bureau of Investigation. ACME has also undertaken a comprehensive review of its security environment, including the performance of its third-party security vendors, and has implemented additional safeguards to strengthen its defenses against future attacks, including strengthened vendor oversight protocols, enhanced Endpoint Detection and Response tools, improved network firewalls, mandatory Multi-Factor Authentication, expanded user password policies, and third-party testing to scan systems for vulnerabilities and validate cyber-security best practices.

In response to the incident, we are providing you with access to Three Bureau Credit Monitoring, Credit Report, and Credit Score services at no charge. These services provide you with alerts for 24 months from the date of enrollment when changes occur to your credit file. This notification is sent to you the same day that the change or update takes place with the bureau. Finally, we are providing you with proactive fraud assistance to help with any questions that you might have or in the event that you

become a victim of fraud. These services will be provided by Cyberscout, a TransUnion company specializing in fraud assistance and remediation services.

How do I enroll for the free services? To enroll in these services at no charge, please log on to <https://bfs.cyberscout.com/activate> and follow the instructions provided.
