<<b2b_text_1 (Notice of Security Incident/Notice of Data Breach (CA only))>>

Dear <<First_name>> <<Last_name>>,

We are writing to inform you out of an abundance of caution that one of <<b2b_text_2 (Company Name)>> (“we”), strategic partners experienced a data incident (the “Incident”) that potentially involved your personal information (“Information”). This letter provides you with information about this Incident, our response, and information on where to direct your questions. As a precaution, we have also provided steps you can take to protect your Information, including the ability to enroll in credit monitoring services that we are offering free of charge for <<ServiceTerminMonths>> months.

What Happened?

On July 9, 2026, we identified suspicious activity affecting a portion of a vendor’s computer network. We immediately began an investigation and took steps to contain and remediate the situation including changing passwords, proactively taking systems offline, disabling remote access, employing advanced security and detection software, and engaging cybersecurity and privacy professionals to assist in our response. Through our investigation, we determined that an unauthorized actor gained access to a single system within our network. We restored the affected system and resumed normal operations shortly after.

Our investigation also determined that certain files and information maintained on the affected system may have been accessible by the unauthorized actor during the Incident. Although we are unable to determine with certainty whether your Information was involved, we are providing this notice out of an abundance of caution because your Information may have been maintained on the affected system.

What Information Was Involved?

The information that may have been involved varied by document and by individual. It may have included your name; identifiers such as date of birth, address, phone number, Social Security number, and/or account number; or other financial information.

Please note that this describes general categories of information identified as potentially present within the affected system and includes categories that are not relevant to each individual whose information may have been present. Our investigation did not identify evidence that your Information was misused for fraud or identity theft, but we are taking the steps below out of an abundance of caution.

What We Are Doing.

We take this Incident and the security of information entrusted to our care very seriously. Upon learning of the Incident, we immediately initiated an investigation and took prompt steps to contain and remediate the activity, including isolating the affected system, disabling remote access, rotating user credentials, and implementing additional security measures. After determining unauthorized activity occurred on our systems, we immediately began analyzing the information involved and engaged data security and privacy professionals to aid in our response and notify affected individuals and relevant government agencies of this Incident.

You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for at least one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft and you have the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. You can place a fraud alert on your credit report by contacting any of the three national credit reporting agencies.

Security Freeze. You have the ability to place a security freeze, also known as a credit freeze, on your credit report free of charge.

A security freeze is intended to prevent credit, loans and services from being approved in your name without your consent. The following information must be included when requesting a security freeze (note that, if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past 5 years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.
