Dear Sample A. Sample,

We are writing to notify you of a security issue that involves certain of your personal information. On or around July 20, 2026, an unauthorized third party accessed a portion of our IT network and took certain records from one of our business applications. The affected records contained customers' names, email addresses, postal addresses, phone numbers and dates of birth. Not every data element was impacted for each affected customer.

We take the security of our customers' information very seriously. Promptly upon learning of the issue, we began an investigation with the assistance of leading cybersecurity experts to understand the nature and scope of the incident. We also took steps to help protect our systems and notified law enforcement.

We are informing you about this issue so you can take steps to help protect your information. As a precaution, it is always a good practice to:
